# Humanities Pathway
## Liberal Arts AA

The Associate of Arts in Liberal Arts combines social sciences, natural sciences, and humanities coursework. These areas of learning cultivate skills that help students develop a sense of social responsibility and strong and transferable intellectual and practical skills. Students learn effective writing and verbal communication, problem solving, and analytical thinking skills. The degree is designed to fulfill the first two years of a bachelor's degree.
*When choosing your elective credits, a minimum of twelve credits must be at the 2000 level.

### Career and Educational Advancement Opportunities

This is intended to be a transfer program. Upon completion of the degree, students will have taken a number of introductory courses that satisfy the general education requirements of most four-year institutions. Students can customize their choices to fulfill requirements within most Bachelor of Arts/Science programs. Students completing will do best if they continue to receive a bachelor's degree; however, it may help them meet the requirements for jobs just above entry level. Information on the UNM College of Arts and Sciences can be accessed here. Diverse opportunities exist for students to engage in work-based learning experiences such as job shadowing, internships, and informational interviewing. Career Services can help students access these experiences.
entertainment.
